Portrait Finishes

Basic The Basic print is produced using modern automatic methods. Color and density are carefully controlled to yield a beautiful yet economical portrait. The Basic print is best displayed under glass.

Designer The Designer print is produced using modern automatic methods. Your portrait is then sprayed with a protective lacquer and bonded to mount board.

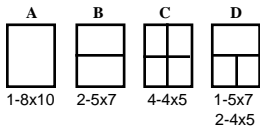

Exhibition The Exhibition print is produced entirely by hand with special attention to detail to create a portrait of lasting beauty. Negative retouching is included. The print is then sprayed with a protective lacquer and bonded to mount board.

Artist The Artist print is a hand-crafted masterpiece. Custom printed by hand, fully retouched and finished, your portrait is bonded to canvas and then stretched over an artist's panel. Then your portrait is brushed with a special lacquer to simulate brush strokes, creating a work of art often mistaken for a painting!

Portrait Packages
